Aviation Safety Program

Aviation Safety-Education Seminar

LOCATION:

Hicks Airfield (T67)

Fort Worth, Texas

DATE: Saturday, November 9, 2002

TIME: 1:00-3:00pm

PROGRAM

Hicks Airfield Open House and ATC Appreciation Day! Seminar, Fly-in, and Barbecue!!

It's fall, it's cool, and it's time to fly! Grab a friend and fly or drive over to Hicks for a fine time!! As a way to say "Thanks" to area ATC Specialists for their part in our nation's safety and security, controllers from area towers, flight service, DFW Approach and Center have been invited to come out and see aviation at its grass roots. Here's your chance to put faces with the voices, and to speak one on one area controllers. Also, airport tours and industry booths.....

Navigating Temporary Flight Restricted Areas: For safety, security, and the continuation of our precious flight privileges, it is essential that we understand how to steer clear of TFR's and Prohibited Airspace. Here's how!

Non-Towered Airport Considerations: This portion of the program will look at operations unique to these airports. Abbreviated radio calls and position reports, standard patterns, right of way rules, and safe separation will be discussed.

BBQ and Live Music 5:00-8:00pm

***Free Admission and No Reservations Required for the Seminar
Door Prizes!!!***

For more information, call: Fort Worth Flight Standards District Office @ (817) 491-5000, Nancy Cullen @ (817) 222-5505.

This seminar satisfies a portion of the Wings Program.
